PROGRAMMING INSTRUCTIONS
#149

The vehicle comes equipped with two transmitters. The receiver can be programmed to accept up to four transmitters. If the number of transmitters programmed exceeds four, the previously programmed transmitters will be erased in order, starting with the first transmitter. To program a transmitter, there are 3 modes within the remote control door lock receiver.

Add mode: This mode is used for adding new or additional transmitters.

Rewrite mode: This mode is used to erase all of the previously programmed transmitters and should be used when installing a new receiver

Confirmation mode: This mode is for confirming how many existing transmitters are registered before adding any transmitters.
