

PROGRAMMING INSTRUCTIONS #502

1. Locate the VALET/OVERRIDE switch under the driver's side dash and switch it to the ON position.
2. With the key turn the ignition to ON and then back to OFF.
3. Flip the VALET/OVERRIDE switch to OFF and the ON to OFF two times. The system should respond with a chirp.
4. Turn the key in the ignition to ON and back to OFF two times and the system should again respond with a chirp.
5. Push the GREEN button on the first remote you wish to program and if programming a second, within 5 seconds press the GREEN button on that remote. The system should chirp after each remote is accepted.

NOTE - Programming mode will automatically terminate 5 seconds after you enter it. If you do not press the remote buttons quick enough you will need to start over at Step 1.
